EXECUTIVE DIRECTOR'S REPORT

A copy of the report is attached and hereto made part of the minutes.

The Budget for 2026 was provided to each member at the November Board Meeting. The Budget includes the previously approved Tipping Fee increase, several pieces of heavy equipment and installation of 13 Vertical Gas Collection Wells.

On a **MOTION** by DeSantis, SECONDED by Neiswender, Members APPROVED To approve the 2026 budget as presented.

Having completed a previous study, of insurance coverage, GLRA had chosen to remain with PennPrime for 2025 and with only a 2% increase for 2026 there will again be no changes made.

On a **MOTION** by MacFadden, SECONDED by Long, Members APPROVED to authorize staff to obtain liability and general insurance coverage and workers compensation through our current provider PennPrime.

There is a small amount of old, uncollected debt showing on our open receivables. Our accounting department has been unsuccessful at trying to collect this debt. The total amount is only \$28.

On a **MOTION** by Long, SECONDED by Fogelsanger, Members APPROVED to direct staff to write off the uncollectable open receivables in the amount of \$28.00.

Beginning January 2026, Board Member attendance at meetings can be in person, via phone, or via Microsoft Teams. To ensure compliance with regulations and best practices, PMAA was contacted for advice, and they have reported this is an acceptable practice and suggested GLRA adopt a Meeting Decorum Policy outlining limitations and expectations.

On a **MOTION** by Grumbine, SECONDED by DeSantis, Members APPROVED the Meeting Decorum Policy.

COMPLIANCE OFFICER'S REPORT

A copy of the report is attached and hereto made part of the minutes.

It was noticed that trash is blowing out of vehicles onto the roads after leaving the facility. Two customers have been sent warning letters notified of this due to not cleaning out their trucks properly while on site.

OPERATION MANAGER'S REPORT

A copy of the report is attached and hereto made part of the minutes.

GLRA has stopped waste excavation temporarily over the holidays and will resume after the New Year.

Employees received the required annual training for the Safety Committee on November 20th. The information was submitted to the Bureau of Labor and Industry, and they have recertified our committee for 2026.

Lastly, there were several motions to make so purchases can be made within the timeframes needed for 2026.

On a **MOTION** by Long, SECONDED by Lindsay, Members APPROVED the purchase through Costars contract, a New 2026 Caterpillar 973-Track Loader for a cost of \$658,920.00 and to allow GLRA to sign the Purchase Order and Sales Agreement in 2025 for purchase with pending approved 2026 budget.

RECYCLING COORDINATOR'S REPORT

A copy of the report is attached and hereto made part of the minutes.

The annual Christmas Tree Recycling is set to begin December 26 through February 21.

Work is beginning on the 2026 Refuse Report Newsletter. Print quotes were received and the low quote for printing was submitted by Graphtech of Harrisburg. Circulation of the Reports is expected to be done in March 2026.

Positive feedback has been coming to us from customers using the recycling center about the posters that have been applied to the bins. The posters include photos to show what is acceptable in each bin and this helps to eliminate contamination.

ENGINEER'S REPORT

A copy of the report is attached and hereto made part of the minutes.

SCS Engineers is helping to create plans and bid documents for the vertical well installations on the Schilling Landfill. Bidding for the project will be from January to March 2026 with construction beginning around May of 2026.

On a **MOTION** by Long, SECONDED by Lindsay, Members APPROVED the request to allow the GLRA to pursue competitive bids, starting on January 5, 2026, for the upcoming Schilling Landfill Vertical Well Installation (Phase II) Project.

GLRA has accepted a proposal from SCS Engineers for assistance with the design and layout of a 9-hole disc golf course along the walking trail. Construction for this is tentatively expected to start in April of 2026.

The Native grass planting is expected to begin soon as it was postponed on December 2 due to the weather.

A proposal from Progressive Environmental Services has been accepted to perform treatment for black goo in 2026. Beginning in March PES will treat the sumps in Pad 4 & 6 as well as a few gas wells.

Executive Director's Report

November 2025

1.0 ADMINISTRATIVE

1.1 GLRA Budget for 2026

GLRA staff completed the 2026 draft budget and presented it to the Audit/Budget Committee on October 20th. A copy of the draft budget was also provided to each Board member at the November Board Meeting. The Budget contains a price increase, previously approved by the Board, and various capital expenses including: installation of vertical gas collection wells, a water truck, a track loader that is equipped for waste application, and an excavator.

1.2 Property, Liability and General Insurance Coverage

PennPrime is a Municipal Insurance Trust that has provided GLRA with insurance coverage since 2015. In 2024, our coverage costs increased significantly and as a result GLRA explored other options for 2025 insurance coverage. Following several price decreases, GLRA chose to remain with PennPrime for 2025. Pricing for 2026 is much more favorable, with only a 2% increase for the combination of the Workers Compensation and PennPrime Property and General Liability Insurance. The total cost for 2026 is \$164,390.

1.3 Open Receivables

There is a total of \$127.16 in fees shown on the Open Receivables List that have not been paid. Two of the charges are: one for \$23.00 and one for \$5.00, the combined amount of \$28.00. This amount is considered uncollectable and as such we would like to write off this \$28.00 debt this year.

1.4 Meeting Decorum Policy

Beginning with the January 2026 meeting, Board Member attendance at the meetings can be in person, via phone or via Microsoft Teams. Phone and Teams attendance is being offered to Board Members to continue the excellent attendance levels we have grown to expect and maintain open communication with all Board Members. To ensure compliance with regulations and best practices, we contacted PMAA for advice on this practice. They reported this is an acceptable practice and suggested we adopt a Meeting Decorum Policy outlining limitations and expectations. Provided in **Attachment 1** is a draft Meeting Decorum Policy for your review and consideration.

2.0 BUDGET PERFORMANCE

2.1 Revenue from Waste Receipts

Revenues from tipping fees were slightly over budget for November. We received 3% more revenue than expected. This is attributed to Construction & Demolition Waste fees which were about 25% above budget. Year to date, our Revenue from Tipping Fees is about 3.2% over budget.

2.2 Other Revenue

Other Revenue appears to be below budget for the month of November. This is attributed to unreported Interest Income which drives the shortfall while the other line items exceed the monthly budget. Year to date, our Other Revenues exceed budget by over 30% as these numbers include the Interest Income.

2.3 Expenditures

Overall, the operating expenses for the month are well below budget. The only areas that exceeded budgeted expenses for the month were Regulatory Expenses and Recycling Expenses. The Regulatory Expenses exceeded the monthly budget due to timing of the required annual Environmental Impairment Liability Insurance payment. This payment was budgeted for October but was actually paid in November. Recycling Expenses exceeded the budget for the month by 3.27%. Year to date, the Recycling Expenses are below budget.

2.4 The Volume of Waste Delivered

Tonnage for November was 10,384. This is just over 100 tons more than the same period in 2024. The Tonnage Trend Comparison Chart is provided in **Attachment 2**. This shows tonnage for 2025 is consistent with tonnage received in 2024. Our tonnage for the year is trending toward approximately 132,000.

3.0 MEETINGS

Attended the regular monthly Board Meeting
Held the monthly Operations Meeting
Attended the monthly Managers Meeting
Attended the monthly Gas & Leachate Meeting
Attended the Compliance Meeting
Open Enrollment/Quarterly Employee Update Meeting
Attended SWANA Annual Convention

POLICY FOR CONDUCTING AUTHORITY MEETINGS

I. Background

The Greater Lebanon Refuse Authority strives to improve communication with and reporting to our Board Members. This policy was established to provide guidance to Board members when they meet to conduct the business of the Authority. This is best accomplished by members attending Board Meetings in person. However, we realize this is not always possible, so beginning in January 2026 Board Members can attend meetings via the phone or through Microsoft Teams. To be clear, the option to attend by phone or via Teams is for Board Members only. Public participation is encouraged but in person attendance is required with very few exceptions.

II. Policy

The purpose of this Policy is to establish general guidance to those attending GLRA Board meetings, whether attending in person, by phone, or via Teams. In general, attendance in person is best, however GLRA recognizes that in person attendance is not always feasible and accessing the meeting by phone or Teams is a satisfactory solution.

A. Order of Business:

1. If a member would like a deviation from the scheduled agenda, this should be communicated with the Executive Director prior to the meeting, if possible, so that the agenda can be amended.
2. Only one person speaks at a time, as recognized by the chair.

B. Speaking Protocol:

1. Public participants must attend in person and must wait to be recognized by the chair before speaking.
2. State your name and affiliation before making comments or asking questions.
3. Time limits may be imposed on public participants to ensure everyone has a chance to participate. The current practice is to provide a maximum of five minutes to each public participant.

C. Relevance:

1. Comments and discussions should be relevant to the agenda items.
2. Avoid bringing up unrelated matters during the meeting.

D. Use of Technology:

1. Electronic devices should be used in a non-disruptive manner. GLRA records the meeting and requests that no other recording be made during the meetings.
2. Turn off or silence mobile phones and other devices during the meeting.
3. If a Board Member is attending by phone or Teams please reduce background noise and, if needed, mute your speaker.

By adhering to these simple rules, our meetings can proceed in an orderly and respectful manner, fostering productive discussions and effective decision-making.

A. Attendance via Phone:

1. Please mute your phone when not voting or participating in a discussion. Background noise can be very distracting.
2. Unless there is an overwhelming reason, please avoid making and seconding motions while attending by phone. There is a delay that causes confusion and often results in two motions or seconds.
3. Participating in the general discussion is encouraged.

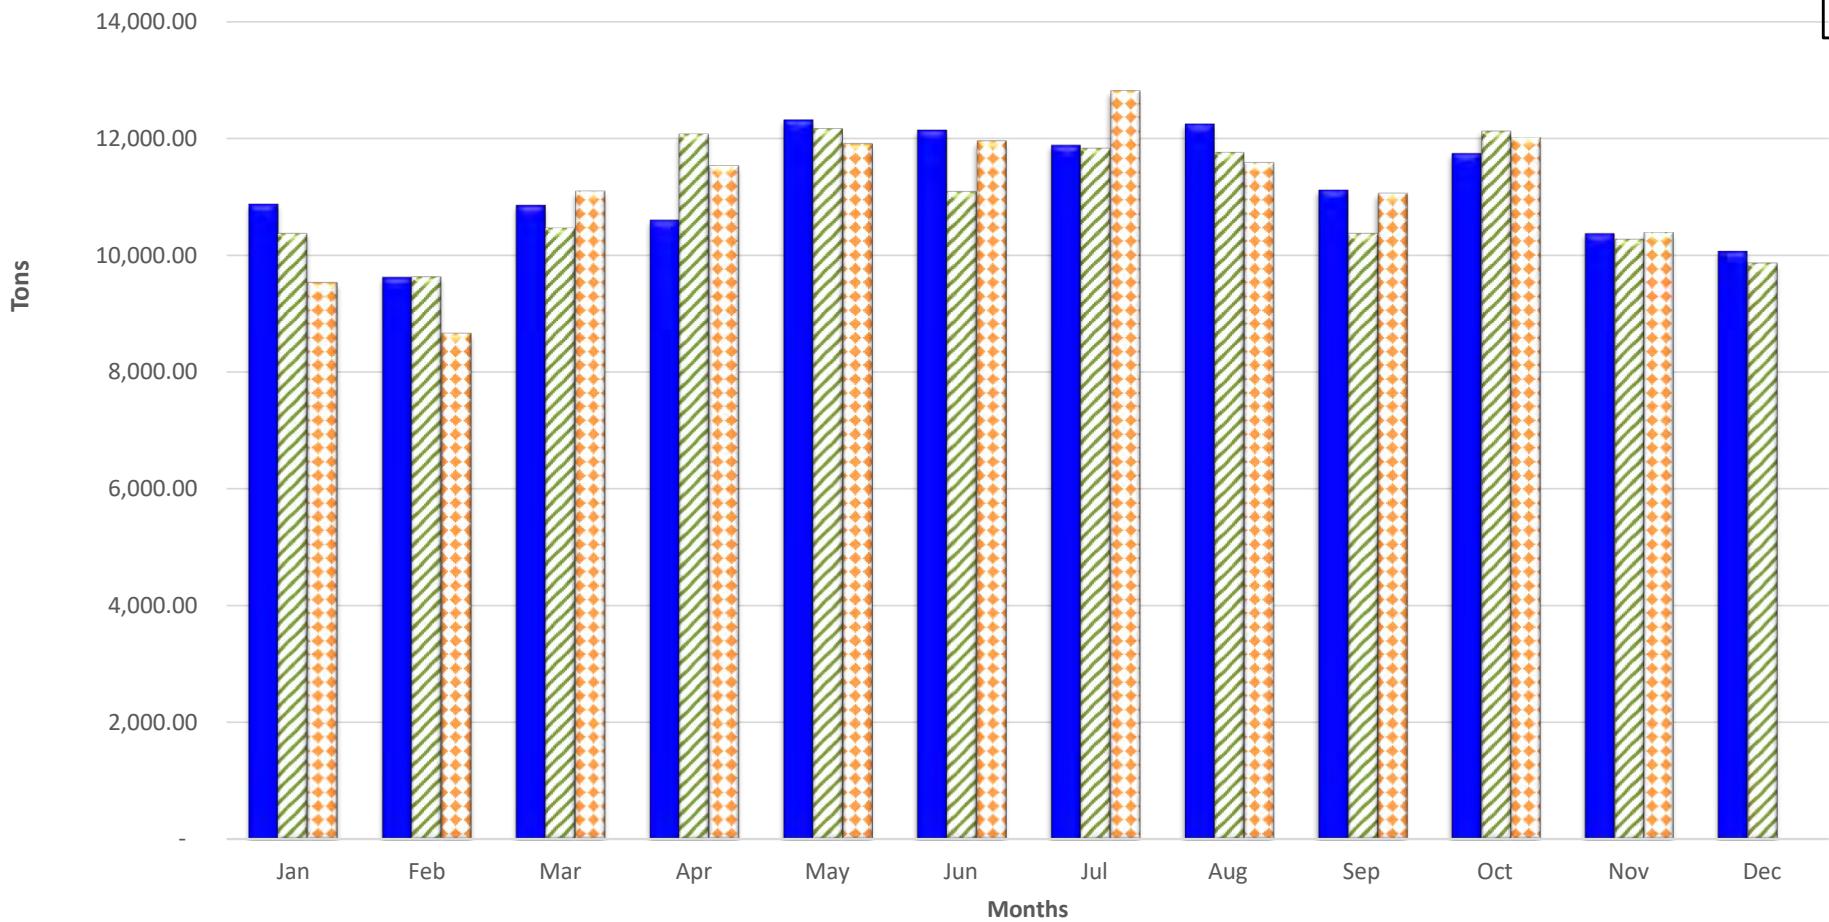

B. Attendance via Teams:

1. Participants will all be muted as they enter the meeting. You can unmute when voting, unless there is an overwhelming reason, please avoid making and seconding motions.
2. Participating in the general discussion is encouraged.
3. All votes will be verbal; if there is a question about the clear passage of a motion, a voice poll will be taken.
4. We respectfully request that no participant streams or records the meetings.

November 2025 Compliance Officer's Report

To: Robert D. Garner, Jr., Executive Director

- 1. Diversion of Waste Update**— The warning letter sent to a small commercial cleanout company identified as doing business in Lebanon County through Facebook posts has completed an application with GLRA. This company will continue to be monitored for delivery compliance regarding the completed jobs shared on their business page.
- 2. Littering Warnings** – Two different commercial customers were sent warning letters regarding litter observed leaving the truck containers after visiting GLRA. The customers were notified of the findings and in the event of a next occurrence, there will be a penalty for not adequately cleaning out on the working-face after dumping. This will be recapped on the next Safety Snip-It.
- 3. Dumping Identifications** – A few residents of Lebanon County were sent letters regarding pieces of mail containing their names from a pile of trash found along Russell Road. The letters were sent in hopes of discussion regarding who hauls their trash. To date, no communications have been received.

II. New Signage on Roll-Off Bins at GLRA's Savings & Convenience Center

The new signage has been applied to all the recycling roll-off containers at the GLRA's Savings & Convenience Center. New colorfully visual and more specific bin signage at GLRA's recycling and convenience areas will help facilitate cleaner source separated materials being deposited in each of the bins and will graphically promote what specifically DOES and DOES NOT belong in each of the bins.

III. 2025 Third Quarter Hauler/Recycler Recycling Tonnage Reports

I am in receipt of the third quarter hauler/recycler recycling tonnage reports from all Lebanon County Commercial Haulers and Recyclers. Reports have been emailed to each of their respective municipalities.

IV. 2025 Annual Recycling Report

Initial correspondence and the 2025 Annual Recycling Report Forms have been emailed to all Lebanon County Municipal Recycling Officials. Municipal Recycling Reports for 2025 are due to the County Recycling Coordinator by March 10, 2026.

V. Act 101 Section 901 Household Battery Management Education Grant Application for CY 2025/2026

The Act 101 Section 901 Household Battery Management Education Grant Application for Calendar Years 2025 and 2026 submitted in April 2025 to the Department of Environmental Protection (DEP) was approved on July 1, 2025. The grant awards \$75,0000 in funding for GLRA's Battery Recycling Educational Campaign for calendar years 2025 and 2026. Lebanon County Commissioner Robert J. Phillips and County Administrator Jamie A. Wolgemuth have executed the grant signatory requirements through the eGrants eSignature system on September 30, 2025. We are currently in the final phase of the process in which DEP prepares and emails a copy of the fully executed grant agreement to GLRA with the disbursement forms.

VI. 2026 Annual Refuse Report Newsletter

I am beginning to work on the 2026 Refuse Report Newsletter. GLRA Staff will write the articles for this newsletter. I requested quotes from local printers for the printing of the newsletter. Print quotes were due November 3, 2025. The low quote for printing 58,000 newsletters was submitted by GRAPHTECH of Harrisburg in the amount of \$12,873.50. VALASSIS DIRECT MAIL, INC. will circulate the 12-page newsletter to 53,000 households via direct mail through the SAVE.COM flyer insert. The preliminary schedule for the circulation of the newsletter is Wednesday, March 11, 2026.

VII. Elected to Vice President of PROP (Professional Recyclers of Pennsylvania)

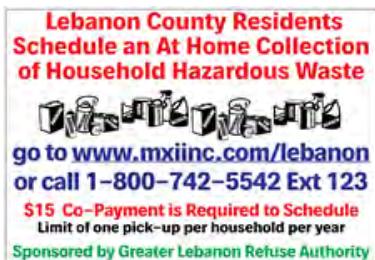

At the November 7, 2025, Professional Recyclers of Pennsylvania (PROP) Board of Directors' Meeting held at the DoubleTree Resort in Lancaster, I was re-elected as Vice President of the PROP Board of Directors for 2026.

VIII. 2025-2026 Annual Christmas Tree Recycling Program

Greater Lebanon Refuse Authority's Annual Christmas Tree Recycling Program is being offered again this year to Lebanon County municipalities, haulers and residents from December 26, 2025 through February 21, 2026. All municipalities and commercial waste haulers have been extended an invitation to participate in the program at no cost if truckloads of decoration free trees are brought in. Radio and newspaper ads will also be run to inform the public throughout the duration of the program.

XI. GLRA Countywide Battery Recycling Program

GLRA accepts all rechargeable and single-use batteries for FREE at its Electronics Recycling Facility, located at 1805 Russell Road. **RECHARGEABLE BATTERIES** are commonly found in cordless power tools, cordless phones, laptops, cellphones, cameras, two-way radios, and medical equipment (portable glucose monitor, thermometer). **SINGLE-USE BATTERIES** cannot be recharged and must be disposed of once they wear out. Single-Use batteries are most commonly used in low-drain devices, such as flashlights, clocks, watches, remote controls, smoke detectors, keyless entry remotes, toys, and hearing aids.

EACH individual battery **MUST BE** under **11 POUNDS** and under **300Wh** to be accepted. **EACH** individual battery **MUST BE** placed in an **INDIVIDUAL** clear plastic storage or ziplock bag. Bagging is the easiest way to protect battery terminals. **ONLY ONE** battery per clear storage bag! No matter how tedious it sounds, that is the rule if you want to recycle batteries for **FREE**. Plastic Bags are **AVAILABLE** for residents at our battery recycling station located in the Electronics Recycling Facility at 1805 Russell Road.

To date we have collected 15,180.5 pounds or 7.59 tons of batteries!

XII. 2025 Countywide Battery Recycling Educational Campaign

Throughout 2025, GLRA is conducting a comprehensive educational campaign consisting of cable and streaming TV ads, internet digital media advertising and press releases, and a battery bag promotional distribution specifically targeting the proper management of rechargeable and single use batteries in Lebanon County. Also, each board member has been given one box of 1000 battery bags to take to their respective municipal office. Just since the educational campaign started January 1, 2025, we have collected **6,439 pounds** of batteries! We are so very pleased with the response—a true testament to the effectiveness of the education campaign!

XIII. Loading Hours for Plant Bedding and Wood Mulch

ONLY PLANT BEDDING is available at this time. GLRA's Compost Facility charges **\$12** per cubic yard.

GLRA DAILY LOADING HOURS:

Monday	8:00 am to 11:00 am
Tuesday	8:00 am to 11:00 am
Wednesday	8:00 am to 11:00 am
Thursday	8:00 am to 11:00 am
Friday	8:00 am to 11:00 am
Saturday	8:30 am to 11:30 am

- Individuals desiring large quantities (5+ cubic yards) may schedule a special time for loading
- Bulk deliveries of **PLANT BEDDING ONLY** are available with a minimum purchase of 10 cubic yards and a \$30 delivery fee.

XIV. GLRA Website Chatbot, Rich E. Soil, November 2025 Analytics

GLRA's Chatbot, Rich E. Soil, the AI-based digital assistant to our website, processes visitor requests in real time providing prompt responses and valid answers 24/7. During the month of November, Rich E. Soil was asked **349 questions** with **296 self-service resolutions/answers**. The **53 unknown resolutions** were either trained to answer correctly for future inquiries or dismissed because either the user did not ask a valid question or the user misspelled words that were unrecognizable to the search within Rich E.'s response database.

Subject: Engineering Summary Report for November 2025

PROJECTS, CURRENT

Heilmandale Expansion and Cell 9 Waste Excavation

Waste excavation operations are proceeding faster than anticipated. Excavated material is being used to construct the remainder of the haul road to the top of the Schilling Landfill. Operations will cease temporarily through the Holidays and resume in the New Year. These efforts will expedite construction and reduce costs associated with the eventual construction of Cell 9 in 2027.

Scalehouse Feasibility Study

The next step of the GLRA's scalehouse study is to meet with scalehouse operators to discuss specific wants/operational needs and to determine how these can fit into a modular unit. The concept of online license applications will also be considered.

Leachate Pretreatment Study

Revisions to CoLA's method of calculating surcharges (using concentration and flow from the same quarter instead of flow from the quarter before the current concentration reading) indicate GLRA pollutant loadings may not be as high as previously thought. The GLRA has reached out to CoLA to investigate if there is any possibility of reducing requirements for future treatment.

Vertical Well Installation on existing Schilling Landfill

The GLRA is currently working with SCS Engineers to create plans and bid documents for the second round of vertical well installations on the Schilling Landfill. This project will be similar in size and scope to the vertical well installation project that was undertaken in 2023. The tentative schedule is design/bid package created by the end of 2025, bidding for the project from January to March 2026, and construction beginning around May of 2026.

Motion: A motion is requested to allow the GLRA to pursue competitive bids, starting on January 5, 2026, for the upcoming Schilling Landfill Vertical Well Installation (Phase II) Project.

Disc Golf Course Design/Construction

The GLRA accepted a proposal from SCS Engineers for assistance with the design/layout of a 9-hole disc golf course along the recently opened walking trail. The tentative schedule for this project is creation of plans/layouts in January to March 2026, and construction (which will be performed by GLRA staff) beginning around April of 2026.

Native Grassland Preservation

The final round of treatment for invasives species has been completed and Pheasants Forever is ready to begin planting. Planting is scheduled for the first two weeks of December for Stands 1, 3, 4 & 5 and Stand 2 is scheduled for fall 2026.

Black Goo Treatment

The GLRA has accepted a proposal from Progressive Environmental Services (PES) to perform treatment for black goo in 2026. Weather depending, PES will be here in March to treat the sumps in Pad 4 & 6 as well as a few gas wells.

Additionally, the GLRA has purchased a tote of the treatment solution to use on a few gas wells this year. PES will arrive December 3rd to train GLRA employees and help with the application. Our hope is to reopen these wells, increase gas production, and monitor any reactions to the solution within the landfill.

Microsoft Teams Integration

Starting in January 2026, the monthly Board Meetings will be run using Microsoft Teams instead of a phone system for any virtual participants. There is no major change to the process, only the addition of a video option. Please see the attached document on the new procedure and if there are any questions, feel free to contact Morgan Lusch.

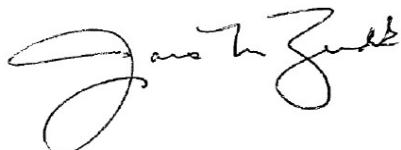

Operational/Housekeeping

The GLRA is in negotiations with NextEra Energy in regard to a continuation of the existing landfill gas contract associated with our landfill gas to energy power plant.

Permits

The GLRA submitted a renewal request for the existing Cedar Run BMP-GP-104 General Permit for Stormwater Associated with Mining Activities.

Submitted by,

James M. Zendek, P.E.
Engineering Manager

Joining the Board Meetings via Microsoft Teams

Beginning with January's meeting, the Board meeting invitation email will include two options for joining:

1. Call-In Option (No Change):
Dial the phone number and enter the conference ID as usual.
2. Teams Video Option (New):
Click the "Join Microsoft Teams Meeting" link in the email to join by video and see the board proceedings.

There is no major change to the process. You can choose whichever option works best for you.

Step-by-Step: Joining the Meeting

Option 1 – Call-In (Traditional Method)

1. Open the Board Meeting email invitation.
2. Dial the listed Teams phone number.
3. When prompted, enter the Conference ID followed by the # key.
4. You'll be placed directly into the meeting.

Option 2 – Join via Teams Link (Video Option)

1. Open the Board Meeting email invitation.
2. Click the "Join Microsoft Teams Meeting" link.
3. Your web browser will open to a Teams page.
 - If you have the Teams app, click "Open Microsoft Teams."
 - If you don't, select "Continue on this browser."
4. Enter your name when prompted and click "Join now".
 - Make sure your camera and microphone settings are correct.
 - You may need to click "Allow" when your browser asks for permission.
5. Please log in or call in a few minutes early to allow time for setup.
